**Subject:** Kessler

**To:** Firestone, Marc

Marc:

I obtained some cursory information regarding Kessler's status. Although limited in details, it is consistent with recent news reports comparing Kessler to "Stalin" relative to his control and impact over the pharmaceutical industry. Apparently the DEA and some senior FDA people are gathering documentation to seal Kessler's fate in the near future (weeks or a few months). Apparently, Kessler's removal from his post is now considered very politically correct and consistent with Clinton using him as a scapegoat. The word is that Kessler will leave and very damaging information on Kessler will be made public in the process. Enjoy.

Will there be a co. plane to take us to the diversity session scheduled for Jan. 5 & 6 in New Jersey? I have a meeting on the 4th in Richmond and need to make arrangements in the late afternoon or evening of the 4th.

Thanks,

Cathy

To: Ellis, Cathy

Cathy, please remember that we are waiting to receive the new DPMP form so that we can format it for the various computer systems at R&D. As they say, the sooner, the better! Thanks. -M.

**To:** cox@mailhost.pm.com

I'm getting interesting vibes. You define what you think we need - then let's see how we can best proceed to get it done. I tried to get this stuff incorporated when we do strategic planning and now I find Cliff reluctant to even do strategic planning.

Subject: Allocation of Randy Sweeney
To: Ellis, Cathy

Cliff was receptive to my suggestion that he take Randy off the list of potential
contributors to a new heater development effort. This resolves the conflict with
Randy's current OSHA-related responsibilities.

I will work to better define the new flavor development effort which we discussed.
